What's Foodie

Who are we

Foodie is born with people who sell their souls to food and create the best app for food finders in Texas!

Our Customer

To help customers reserve and search their interested restaurants from food category, nationality, price, and ranking.

Our Partner

Restaurants can manage their reservation and price and use Foodie analytics tools to gain more customers!

ER Diagrams

DATA
DEVELOPMENT

FOODIE

ER Diagrams

RESTAURANT

Main data gathering from restaurants or partners!
It's used for providing information to our customer users.

RESERVATION

Reservation is used as an associative entity to link between Restaurant and Customer tables.

CUSTOMER

Customer table information comes from the customer who registered on our app and made the reservation.
